Pure Bamboo

We started Pure Bamboo to create a company that could both support sustainable environmental business practices and serve a fun and freedom loving lifestyle. Can we have both? We believe we can! As avid outdoor enthusiasts, spa lovers and yogis we know first hand the importance of quality clothing and the fabric that makes up that garment. We've found bamboo to be a superior fabric for its comfort, breathability, and natural anti-microbial properties.

Can your purchasing choices actually help the environment rather than hurt it? Absolutely! How? We work closely with a non profit organization called Carbonfund.org. When you shop at Pure Bamboo, a portion of every purchase is donated to Carbonfund. This donation offsets carbon emissions released during the manufacturing of your product. These emissions are offset by investing in renewable energy resources as well as reforestation projects. [Click here](#) to learn more about Carbonfund.org, carbon offsets and how this process works.

Pure Bamboo is a company dedicated to investing in our future generations. We invest by committing to reducing our carbon footprint and working with other companies and manufacturers that utilize fair trade business practices. These practices include paying workers and craftspeople a living wage. We believe that paying people a living wage is an important ethical business practice and ultimately contributes to improving working conditions and helping foster better working environments for all.

We believe that it's possible to purchase products you love without having a negative impact on the environment. Together with a growing number of companies, we seek to create alternative choices in the market place for you to purchase unique, stylish clothing that is gentle on the environment and utilize sustainable business practices.

All of our products are carefully selected to ensure quality, function and fashion. Additionally we are dedicated to creating a business environment where sustainability, fair trade and Zero Carbon emissions go hand in hand with convenience, comfort and elegance.

At Pure Bamboo, our goal is to honor the earth, her citizens and have fun while doing it.

Do you Bamboo?

Bamboo is fast becoming the most-popular alternative fabric and most talked about trends in fashion, *why?*

High-end, High-performance and Low Impact

PURE Bamboo is eco-luxurious! Finally, a fabric that fulfills all our needs for comfort, beauty and sustainability. Bamboo itself is one of the fastest growing, most readily renewable natural resources on the planet. It's 100% naturally grown without pesticides or fertilizers so PURE Bamboo clothing is better for your skin than most cottons and it's biodegradable. The unique properties of the fabric make it soft and durable—**smooth and free-moving** much like a fine silk and cashmere combined. This is why bamboo linen, even at average thread counts, is considered in the luxury category. But it's also *why*—for people who care about taking care of their bodies, and taking care of the environment, bamboo is the perfect choice.

**100% Natural**

PURE Bamboo clothing protects the wearer. Bamboo has naturally occurring anti-bacterial and anti-fungal properties, called **Bamboo Kin**, that inhibit bacteria from cultivating on it. So when this bamboo fiber is made into fabric, it retains its anti-microbial properties! Because of this amazing quality, you can wash PURE Bamboo at lower temperatures, which means less energy and detergent are consumed. Twice as absorbent as cotton fabric, PURE Bamboo wicks away moisture from the skin and keeps the wearer dry, cool and comfortable. The fabric absorbs and evaporates perspiration quickly **keeping the wearers odor-free**, making it ideal for bathrobes, towels, active wear and baby wear.

Naturally Renewable and Durable

As one of the world's most versatile and environmentally-friendly materials, bamboo has been used as the perfect natural resource for thousands of years. And because bamboo requires no fertilizers, pesticides or insecticides to grow, bamboo clothing has NO harmful chemical residues to irritate your skin—unlike most cotton clothing, which leaves behind damaging chemicals in the fabric. (Cotton requires the use of fertilizers and insecticides, 7 out of 15 are rated among the most toxic chemicals on earth!) The non-sustainable cotton industry not only exacts an enormous toll on the earth's air, water and soil, it poorly impacts the health of people working in those fields as well as those living in cotton growing areas.

Bamboo is one of the most prolific plants (it's actually considered a grass) on the planet. Some varieties can grow up to 4 feet a day! Once cut a bamboo plant is fully mature in 3 to 4 years and ready to be harvested. Compared to a similar strand of trees bamboo absorbs 45% more carbon dioxide from the air. Bamboo can even improve soil quality in places where erosion and degradation of the natural minerals has occurred. It needs very little water to grow, which means it can thrive in a variety of climates without depleting water supplies.

In fact, PURE Bamboo is so committed to a sustainable and GREEN business, if you are a spa or hotel supplying your clients with these ultra-soft, long-lasting bathrobes, towels or sheets, you can get a little R & R—ask about our **Rebate and Recycle program**.

"There is never waste in nature."

And...Panda Safe!

There are over 1000 different species of bamboo. All PURE Bamboo products come from a type of bamboo called Moso or if you're botanically inclined *Phyllostachys pubescens*, a variety of bamboo that Pandas do not eat. So yeah, it's Panda safe too!

Bamboo Pillow Cases

Pure Bamboo Spa Wrap

Pure Organic Bamboo Towel Set

The Pure Bamboo Robe

This amazingly soft and scrumptious robe is like a soft furry teddy bear hug to greet you after a relaxing shower or massage. The 70% bamboo & 30% hypoallergenic organic cotton blend make it the perfect robe to wear after a spa or massage when skin pores are open and most susceptible to toxins in the fabrics. Don with full confidence that what you are wearing is the best nature has to offer. In addition bamboo is naturally anti-microbial and anti-fungal providing you a superior option over traditional terrycloth bathrobes. Once you put on a Pure Bamboo Bathrobe you'll never want to take it off and with our Lifetime Guarantee on all our robes your satisfaction is insured. Go ahead try it! This is the last bathrobe you'll ever have to buy!!

Do you Bamboo?

All of our products are carefully selected to ensure quality, function and fashion.

We are dedicated to creating a business environment where sustainability, fair trade and a sincere responsibility and respect for the natural world go hand in hand with convenience, comfort and elegance.

At Pure Bamboo, our goal is to honor the earth, her citizens and have fun while doing it.

Pure Bamboo is proud to introduce our **Rebate and Recycle Program** to our Spa and Resort customers. As part of our commitment to reducing waste, Pure Bamboo offers a rebate on all worn out bathrobes, towels, wraps and sheets purchased from Pure Bamboo. Pure Bamboo will use the returned merchandize to recycle the product into new products or use it for composting to create healthy soil. So don't throw those old towels and bathrobes away, recycle them with us and get paid to do it!

We bamboo.
