**QUICK OVERVIEW**

Includes volumes 1, 2, 3, 4, and 5 of the YBCR DVDs, 5 sets of the sliding double-sided word & picture cards, and 5 lift-the-flap books. Includes Baby's First Teacher box with 166 words (on 83 double-sided cards) and instructions for games. Includes simple instructions along with the Parents' Guide and Dr. Titzer's Early Learning Workshop DVD. BONUS: Includes 5 Your Child Can Read! DVDs. The YCCR DVDs are highly entertaining, interactive, and they contain songs designed to teach aspects of reading.

NOTE: There are more than 1200 words in this package containing YBCR and Your Child Can Read including the 200 most frequently used words in children's literature. The YBCR program is designed to teach reading in a way that is similar to how infants learn other language skills. The babies start off memorizing what words look like, what they sound like, and what they mean. This is similar to how babies learn to understand and say words -- they start off memorizing what the words sound like and what they mean. Toddlers naturally figure out grammar by figuring out the patterns of the spoken language without being told the rules of grammar. It is possible for babies and toddlers to figure out the patterns of the written language after learning to read many individual words. The Your Child Can Read program is much more of a phonics-based program and the intent of YCCR is to have the children read at a fast rate with comprehension.

Dedication

Review by HappyDad  
This is the best product I've bought for my son. His vocabulary and alertness is huge for a 22-month old child. He reads EVERYTHING he sees when I'm driving doing chores with him, at the grocery store, etc. Truly amazing.

I must say that for it to work you have to be consistent. Dedication is crucial for the system to work. You must sit for a few minutes with your child every morning (no kidding here, every morning) and use the flash cards, then during the day have him view one video at least twice a day. Increase flashcards and video exposure over time; and most importantly, avoid at all cost to expose your child to any Disney, Barney, Elmo crap. It will dumb him down in a snap. When you already see him picking up words on his own, combine two words he has already mastered so he can realize the 2 words have even more meaning (RED BALL, MILK PLEASE, etc.). Again, dedication from the parents is vital. (Posted on 11/20/12)
