TURN TO PAGE 2...

The Remarkable 3,000 Year Journey to the Top...

Dear Friend,

Doesn't it make sense that a plant species which has managed to survive for over 3,000 years must have some pretty unique health properties?

Over the years, people from countries all over the world have given it nicknames like... "The Silent Healer", "Plant of Immortality", "No Need of a Doctor", "Man's Natural Medicine Cabinet", "Pain's Natural Enemy" and "Energy of Youth."

And recently, it was ranked as the #1 Herbal Supplement in America. This natural wonder is Aloe vera!

So why has it become so popular?

Aloe vera has risen to the top of the heap because this plant is rich in over 300 nutrients that your body needs every day. And the way these nutrients work in harmony is truly unique. You'd be hard-pressed to find anything else that grows naturally with this much beneficial potency.

In a moment, you'll read how modern science has started to unlock the secrets of Aloe vera and how it's helping Americans just like you say good-bye to...

- ✓ **Aches and pains caused by joint and muscle inflammation**
- ✓ **Embarrassing gas, indigestion,**

stomach upsets and constipation

- ✓ **Rollercoaster blood sugar levels**
- ✓ **Hard to control cholesterol and blood pressure levels**
- ✓ **That sluggish, no energy feeling...**

In a nutshell, this is why millions of people are flocking to natural foods stores to get Aloe vera supplements.

But before we go further, I need to warn you about the dark side of the Aloe vera business. Here's a sad fact... if you've purchased Aloe vera recently, you may have wasted your money.

The rise in popularity of Aloe vera is causing many companies to cut corners or just flat out make products that aren't pure and potent Aloe vera.

In fact, some Aloe industry experts estimate...

As much as 75% of Aloe sold today may not be pure... or has lost up to 40% of the beneficial nutrients.

The bottom line is not all Aloe vera is the same.

That's why I'm going to show you a foolproof way to determine if your Aloe vera is authentic right in your home... using \$0.02 of iodine. So you'll never have to worry about getting ripped off!

As important, you'll see how Aloe vera must be grown and made into powder to ensure maximum potency and benefits to you. What's more, you need to know which parts of the Aloe vera plant should be in your supplement – and what absolutely needs to be removed.

If you've tried Aloe vera before and didn't think it made a noticeable difference in your health, there's a very good chance it wasn't real Aloe vera!

The Gold Standard in Aloe vera Capsules

To give clients the best Aloe vera supplement possible, NatureCity® has teamed up with the distinguished medical doctor, Ivan E. Danhof, Ph.D, M.D., who is recognized worldwide as one of the foremost authorities on Aloe vera.

And if you're looking for the Gold Standard in Aloe vera supplements... you've found it.

It's called TrueAloe™... which is the English translation of the Latin "Aloe vera."

Here's why TrueAloe™ is as good as it gets...

- TrueAloe™ contains 100% USDA certified organic Aloe vera grown in ideal pollution and chemical free conditions.
- TrueAloe™'s potency is maximized using a patented method developed over 30 years by Dr. Danhof.
- Each batch of TrueAloe™ is personally analyzed by Dr. Danhof to ensure purity and potency before it gets bottled and delivered to our clients.

"TrueAloe is God's medicine"

"I had read testimonials from different people and how it helped them. Knowing it was God's medicine I decided to try it. I did notice a big difference in the pain in my hands, and if I stop taking it my joints start really aching."

– Beverly H., El Cajon, CA

"Thanks a million for introducing TrueAloe to us!"

"Before TrueAloe I had constipation and bloating. Now I go regularly and I'm no longer bloated. I'm so relieved! TrueAloe helped my blood sugar levels improve – 40 points on average!"

– John V., Lady Lake, FL

Individual results may vary

- TrueAloe™ has been certified with the seal of approval by the independent International Aloe Science Council (IASC) validating its Aloe content and purity.

Isn't Aloe vera Just a Plant for Burns?

You're probably familiar with an Aloe plant. Growing up, my Mom always had one on the windowsill in our kitchen. If you got burned, Mom would break off a leaf and let the

soothing gel wash away the pain and redness. Everything healed fast with Aloe, and we never got a scar.

It was nature's perfect healer. So perfect, in fact...

King Solomon used Aloe from his own garden!

So did Mahatma Gandhi, Christopher Columbus and the legendary Queen Cleopatra.

Just consider...

In 1,000 B.C., King Solomon, the greatest Old Testament gardener, grew Aloe for medicinal uses.

Christopher Columbus considered Aloe a medicinal wonder plant and used the pulp to save his crew on the Santa Maria from disease. He called it the "doctor in a pot."

Mahatma Gandhi said it was one of "the secret forces" that kept him alive during his fasts.

And it was Cleopatra's secret for her glowing beauty.

Why did mainstream medicine abandon this fast-acting, natural solution ?

Quite simply...they can't make any money from it!

There's nothing synthetic, manufactured, or "unnatural" about Aloe vera.

And because it's been a powerful health ally for over 3,000 years, there's certainly nothing new about it!

But all those "unnatural" conditions need to be present for pharmaceutical companies to patent a drug...and rake in lots of money.

Instead of life-giving Aloe vera, you're likely prescribed NSAIDs, steroids and COX-2 inhibitor drugs known to cause...

1. Heart attack
2. Internal bleeding
3. Stomach pain, heartburn and ulcers
4. Deadly liver or kidney problems
5. Fatal high blood pressure
6. And other, "minor" things like constipation, leg swelling, headaches and dizziness.

In fact, a study published in

The "Wise King" and many other historical leaders depended on the **benefits of Aloe vera!**

King Solomon grew his own Aloe vera!

Queen Cleopatra said it was her beauty secret...

Christopher Columbus used it to keep him and his crew healthy...

Mahatma Gandhi used it to stay alive...

Aloe's True Pioneer and NatureCity® Partner to Bring You the Best!

You'll be pleased to know that TrueAloe™ was developed in partnership with one of the world's foremost authorities on Aloe vera, Ivan E. Danhof, Ph.D, M.D.

You can read about Dr. Danhof's distinguished career in medicine below. He has spent much of his last 30 years researching the Aloe vera plant.

In fact, in the late 1970s, Dr. Danhof was the first to identify the various nutritional components in Aloe vera...hence why his many of his peers call him one of "Aloe's true pioneers."

To date, Dr. Danhof and others have identified over 300 biologically active compounds in the remarkable Aloe

vera plant... almost five times more than any other plant Dr. Danhof has come across in the world.

Dr. Danhof and NatureCity® President Carl Pradelli share a common goal... *keeping you as healthy as possible!*

As important, NatureCity® uses Dr. Danhof's patented process that maximizes the potency of TrueAloe™ - so you can get the most benefits.

What's more, **Dr. Danhof personally inspects and tests every batch of Aloe vera used in TrueAloe™** to ensure it meets his high standards for purity and quality. You won't

get it, if Dr. Danhof hasn't inspected it!

Read on to learn about Dr. Danhof's "secret garden".....his handpicked location for growing the best organic Aloe vera possible!

Introducing Dr. Ivan E. Danhof, the world's leading authority on the Aloe vera plant

Dr. Danhof attended the University of North Texas where he received a bachelor's degree in biology and chemistry, and a master's degree in microbiology.

He continued graduate studies at the University of Illinois where he earned a second master's degree in nutrition and a Ph.D. in physiology.

He then attended the University of Texas Health Center Southwest Medical

School to earn a Doctor of Medicine degree with clinical specialties in internal medicine and gastroenterology.

He has published more than 80 research papers and served as a consultant to several pharmaceutical research institutes as well as the Food and Drug Administration.

But it was as a Fulbright scholar in 1969 and 1970 that Dr. Danhof discovered

the power of herbal medicines.

As a result of his unique training and background, Dr. Danhof has become recognized as one of the world's foremost experts on medically active herbal molecules (such as Aloe polysaccharides).

Of particular importance are his discoveries of the functional components and unique molecules in Aloe vera.

At NatureCity®, we work with the best to bring you the best!

the 2001 *American Journal of Epidemiology* reported that...

“...use of oral steroids and NSAIDs was associated with about twofold and fourfold increased risk of upper gastrointestinal complications, respectively.”

That's because NSAIDs and steroids turn off your body's ability to heal!

TrueAloe™ doesn't! It triggers fast relief, soothing damaged tissue. How? An amazing sugar...

Isn't sugar...bad?! Well, yes, some sugar is definitely bad. Other sugars are essential to life.

The “good, life-giving” sugar in TrueAloe™ is a large molecule called a *polysaccharide*.

A saccharide is a simple sugar, composed of glucose and mannose. A polysaccharide is a string...or chain...

of saccharides of varying sizes.

The cells in your body use saccharides to communicate with each other. In fact, saccharides are the “cell” phones for your cells!

When you're in pain, polysaccharides send an instant message to your NK cells telling them to destroy what is hurting you and put your body back to normal.

One teeny capsule of TrueAloe™ floods your body with polysaccharide “Agents of Life”... much more than most other Aloe products.

Your relief is fast...and lasting...as long as you stick with TrueAloe!

That's why TrueAloe™ is so effective in soothing joint and muscle pain...

And with more than 55 million suffering from joint and muscle pain, it's the primary source of disability

“I believe TrueAloe is doing wonders for my whole insides”

“I have been taking TrueAloe for over a year and have noticed remarkable improvements in my health.

Ten years ago I was diagnosed with ulcerative colitis. I have had no flare-ups since I've taken TrueAloe and noticed I can eat things I couldn't before.

I started with 4 capsules twice a day for the first bottle and then 2 capsules twice a day. After about a month, I noticed decreased pain in my hip and joints and I wasn't waking up with neck pain anymore. Now I was able to put 3 cords of firewood in my basement for winter, bending, stooping and lifting without pain! I wasn't sore at all.

I am 63 years old and wish I had found TrueAloe sooner. It has really made a good difference in my life. I will continue to take this remarkable product because I believe it's doing wonders for my whole insides.”

– Elaine D., Northfield, NH

8-25-2014

Dear Mr. Pradelli,

I want to submit this as my testimonial.

For the past 7 or 8 years I have been taking a large number of medicines. A few months ago I received my first order of TrueAloe - and I started taking it the same day.

I had been taking 2 Tylenol at bed time so I could rest. After one week of TrueAloe, I have not had another Tylenol.

Up to this date, I have been gradually able to stop taking three prescription medications and one blood pressure medicine.

I can honestly say I am feeling better than I have in years!

For the last several years, I have had to pay someone to do my yard work. I have now started doing a lot of it myself again.

In addition to feeling better, my blood pressure is in a better range and more stable that it has been in a long time.

Thank you for a great product!

Sincerely,
Charles K.
Charlotte, NC

TrueAloe™: 100% Pure and Potent Aloe That Delivers Real Results!

Supplement Facts	
Serving Size: 2 Capsules Servings per Container: 60	
Amount Per Serving	
Aloe vera leaf (200:1)	400 mg*
* Daily value not established.	
Ingredients: 100% organic Aloe vera, capsule shell (gelatin).	

Actual size

Small, easy to swallow capsules

↑ No fillers or additives, just 100% pure organic Aloe vera in a capsule.

TrueAloe™'s Polysaccharides are Indestructible!

A unique feature of TrueAloe™'s polysaccharides is their ability to pass through the stomach and digestive tract and into the blood stream without being destroyed by stomach acid or digestive enzymes.

What does this mean for you?

Unlike other "solutions" you may have tried, the polysaccharides in TrueAloe™ actually reach your blood stream, where they are able to fulfill their immune-supporting functions.

They don't just talk the talk... they walk the walk, balancing your system and providing it exactly what it needs to erase pain and, control inflammation!

The power of TrueAloe™ polysaccharides

1. They are essential in virtually all intelligent interactions between the cells of the body.
2. They're a crucial part of cell intelligence and activity.
3. They play an important role in helping your body distinguish what belongs in it from what does not belong.
4. They rush critical enzymes and NK cells to your internal "wound," safely eliminating pain and inflammation.
5. They trigger lasting relief..

in the U.S.

TrueAloe™ contains 10 natural pain and inflammation stoppers ...with zero side-effects.

Over-the-counter analgesics and pain relievers contain a Frankenstein-form of salicylate acid with this warning:

- "may cause liver damage"
- "may cause stomach bleeding"
- "may increase risk of heart attack or stroke"

You're not allowed to take them for more than 10 days! What if you're still in pain after 10 days? Do you risk having a stroke?

Well, the good news is, you can take TrueAloe™ until the cows come home, and your biggest worry will be...the next fun activity to plan!

And because TrueAloe™ is made from the entire Aloe vera leaf, your aching body is soothed by 100% natural pain relievers.

In fact, Dr. Ivan Danhof helped determine that Aloe vera's amazing ability to erase inflammation, joint and muscle pain and restore youthful movement and freedom is due to these natural components:

- ✓ 2 natural analgesics (sodium salicylate and choline salicylate)
- ✓ PLUS 1 powerful anti-inflammatory agent (bradykininase)
- ✓ PLUS 2 potent COX-2 inhibiting properties (aloesin and glycoprotein) with ZERO cardiac risks
- ✓ PLUS 3 plant sterols confirmed by research to be powerful anti-inflammatory agents (Lupeol,

8

CALL NOW 1-800-651-3066

B-Sitosterol and Campesterol)

- ✓ PLUS Magnesium lactate, which inhibits the release of histamine
- ✓ PLUS Alprogen, which blocks inflammatory agents and inhibits enzymes that release pro-inflammatory materials

These are pain and inflammation fighters your body knows how to work with - because they're 100% natural.

And unlike aspirin or ibuprofen, TrueAloe™ actually *helps* your digestion.

Even scientists were surprised it works so well!

Here's what Dr. Robert H. Davis, Professor Emeritus at Pennsylvania

College of Podiatric Medicine stated:

"...one morning my students and I were evaluating an extract we were working on for anti-arthritis activity. By accident, we used an Aloe extract as a treatment control. It turned out that the Aloe vera produced the best response we had ever seen from a natural substance."

But there's more to Aloe vera than its amazing ability to kick your NK cells into action and gobble up joint and muscle pain and inflammation!

TrueAloe™ soothes a gut gone wild with acid.

An irritable gut — burning acid in your throat, stomach pain, bloating, embarrassing gas, diarrhea or

“My husband couldn't get relief until TrueAloe”

“Several years ago I fell and cracked my back. I had pain all the time. Since I have been taking TrueAloe it has quit hurting and I take it all the time now. I can't do without it! My husband also had pain in his shoulder and couldn't get any relief until he started taking TrueAloe. We recommend your products highly.”

– Nelle W., Cleveland, TN

“I was able to quit taking my acid reflux medication!”

“Since taking TrueAloe, I was able to quit taking my medication for acid reflux – no more problems with that – and have also had a noticeable improvement in my blood sugar. I have been able to cut my medications in half, and am hoping to do without altogether.”

– Mary B., Dresden, OH

Individual results may vary

constipation or both, nausea, chest pain — are all signs of a gut under attack and unable to switch on the NK cells necessary to stop inflammation and soothe your gut wall.

Not only does TrueAloe™ wake up your body’s NK cells, its polysaccharides play a special role.

TrueAloe’s polysaccharide protective barrier

Plus...
its ability to dial down burning stomach acid
Equals...
real relief to a burning gut.

You see, TrueAloe™’s life-giving polysaccharides are made up of *mannose* and glucose.

The cells lining your digestive tract are composed of mannose-binding receptors. They recognize and reach out to TrueAloe™’s polysaccharides, pulling them close. Once joined, they build a protective barrier to the “bad” bacteria that’s tearing your gut apart.

Then, the NK cells called into action by Aloe attack, absorb and eliminate the bad bacteria, whisking it out of your body for good.

TrueAloe™ soothes and protects your gut just like your Mom’s Aloe healed burns and cuts!

Plus, the TrueAloe™ sugar molecules decrease the amount of burning acid in your stomach.

Clinical studies demonstrate Aloe’s power to fix your digestive problems.

In a clinical human study, leading scientist Dr. Jeffrey Bland from the Linus Pauling Institute found that

Aloe vera helps your gastrointestinal function 4 ways:

1. Makes your digestion easier without causing diarrhea (**food moves faster, gunk doesn’t stay in your colon, constipation is gone!**)
2. Normalizes your pH and balances acid levels in your gut (**nature’s perfect antacid**)
3. Reduces damaging and painful yeast (**boosting your natural immunity**)
4. Promotes “good” bacteria and gets rid of “bad” bacteria (**and probiotics work much better with Aloe!**)

Four of the participants were thrilled to finally be “regular” and free of gas and bloating after eating.

Three had more energy... and felt just plain happier.

More human studies with Aloe vera were conducted. The results were amazing.

In a randomized, double-blind, placebo-controlled trial, 44 people suffering from ulcerative colitis (a type of irritable bowel) were given Aloe vera or a placebo.

Colitis is painful and embarrassing — a constant barrage of fever, bloody diarrhea, nausea, and severe abdominal cramps.

**So imagine the joy when...
in just 4 weeks,
47% of the lucky folks taking Aloe had a complete remission or improvement in their condition...
with NO SIDE EFFECTS.**

Aloe vera’s power was shown once again in Russia.

Ulcer patients were given Aloe vera. The researchers found that Aloe

10 CALL NOW 1-800-651-3066

Why TrueAloe™? Because it **Works!**

“My urology doctor son-in-law is happy with TrueAloe, too!”

“I play the banjo for fun but my fingers got so stiff I couldn’t play. After taking TrueAloe for a few days my mobility’s much improved. Our daughter and son-in-law are taking your products. He is a urology doctor and is happy with your products, too!”

– Edgar & Martha E., Johnson City, TN

“At last! NatureCity is truly the best. I’m a customer for life!”

“At last! After dozens of trials with other products from other companies, NatureCity really, really delivers what you say you can. You are truly the best!”

I have basal joint pain in my right thumb. I teach music and play piano professionally. I have much better movement – very little stiffness – and although there is still some pain it is a very small amount. NOTHING has helped me nearly as much. You’ve got a customer for life!”

– Russell W., W Henrietta, NY

“I won’t be without it again!”

“I take TrueAloe for my joint pain. I followed the initial dosage of 8 capsules a day and now take 4 capsules a day. It has totally taken away the joint pains in my hands. Once I ran out and the pain returned. I won’t be without it again!!”

Valerie P., Honolulu, HI

“TrueAloe is the only product that works for me!”

“I started using TrueAloe because of the pain in my neck, shoulders, feet and legs. Your product is the only one that really works for me. I know, because I have tried them all. I’m 80 years old and still work on power motors – my hobby after I retired in 1998. Now I’m like the little rabbit. I just keep going and going!”

– Hayden C., Leitchfield, KY

Individual results may vary

“No More Stiffness & Cracking Joints”

“I started using TrueAloe about 2 years ago when it was recommended to me by my father. I will not be without it.

I have always (it seems) had issues with my lower back. When it was good it was just OK, but once or twice a year when something would set it off the pain was unbearable not to mention debilitating.

An MRI showed a “large severe herniated disk, L5S1.” This meant 2 or 3 times a week at the chiropractor, one a week in physical therapy. The co-pays alone were a killer! Both parties recommended surgery. Then I began on your TrueAloe, 3 capsules twice a day. To make a long story short, I have not been to ANY doctor or therapists for my back in about 2 years. I simply don’t need them.

Of course, I do still have an injury that isn’t going to fix itself but I am pain free! No more ice packs, muscle relaxers or pain pills. I don’t need them anymore. I have TrueAloe. I have improved mobility, no more stiffness and no more cracking joints.

Also, your company is a pleasure to deal with both on line and on the phone. And I love the samples that are included in my regular orders! It’s a nice touch. Thanks again!” – **Bruce D., Redding, CT**

was just as effective as a commonly used anti-ulcer drug (a proton pump inhibitor) with one major difference...

...NO toxic side effects!

Take your pick. A proton pump inhibitor that may give you headaches, diarrhea, vomiting, gas, nausea, dizziness, fatigue, constipation, breast development in men, or joint pain...

...or soothing Aloe vera with no reported side effects. No matter how much you take.

Was the amazing synergy between Aloe vera and your body planned in the Garden of Eden?

Every plant in Eden had a distinct purpose to help mankind!

In fact, this ancient plant has the

perfect combination of nutrients to help protect you from the deadliest epidemic of our lifetime...

Is this silent killer creeping up on you?

Metabolic Syndrome X is a group of risk factors that together significantly increase your risk of deadly conditions like heart disease and diabetes.

And an alarming 35% of American adults are suffering from Metabolic Syndrome X...and worse the number is growing rapidly. If you have:

- elevated blood sugar,
- high triglycerides (too much fat in your blood),
- reduced good (HDL) cholesterol,
- raised blood pressure (greater than 130/85),
- extra fat around your middle

...Metabolic Syndrome X is lurking,

12

CALL NOW 1-800-651-3066

silently increasing your risk of serious health problems.

And you're at greater risk for this sinister syndrome if you don't move around much.

It's a double whammy, isn't it?

Your joint and muscle pain makes it hard to enjoy healthy moments like a walk around the block...and your joint and muscle pain also sets you

up for a twofold increased risk of Metabolic Syndrome!

Scientific studies confirm: Aloe helps protect you from Metabolic Syndrome X.

Researchers at the Biochemical Research Laboratory in Tokyo, Japan conducted a clinical trial of 70 people who were diagnosed as borderline diabetic.

The study results found that regular

Over 300 nutrients in Aloe make it one of the most powerful gifts in God's original botanical pharmacy.

Aloe Contains	Quantity	Health Properties
Amino acids	Provides 20 of the 22 required amino acids & 7 of the 8 essential ones	Basic building blocks of proteins in production of muscle tissue, etc.
Enzymes	Provides 8 : Aliiase, Alkaline Phosphatase, Amylase, Carboxypeptidase, Catalase, Cellulase, Lipase, Peroxidase	Helps break down food sugars and fats. Enhances nutrient absorption.
Lignin	Cellulose based substance	Provides absorption and penetration up to 4X faster than water!
Minerals	Provides 16: Aluminum, Barium, Boron, Calcium, Chromium, Cobalt, Copper, Iron, Magnesium, Manganese, Potassium, Selenium, Silicon, Sodium, Tin, Zinc	Essential for good health and proper system functioning.
Salicylic Acid	Aspirin-like compound	Natural, non-toxic analgesic
Saponins	Glycosides	Cleansing and antiseptic
Sterols	Provides 5 main plant sterols	Anti-inflammatory and anti-diabetic properties
Sugars	Mono and Poly saccharides	Activate NK cells, anti-inflammatory, anti-viral immune modulating. Protect and repair your gut.
Vitamins	A, C, E, B, Choline, B12, Folic acid	A,C & E are antioxidants. Neutralize free radicals. B12 required for red blood cell production.

“Thanks for a product that works!”

“My doctor said I needed hip surgery in my right hip because nothing could stop the pain. I started taking TrueAloe and most of the pain was gone in 2 weeks. My doctor said to keep doing what I’m doing. Thanks for a product that works!”

– Delbert C., Mounds, OK

intake of Aloe vera helped reduce levels of fasting blood sugar and glycated hemoglobin.

Data confirms Aloe vera helps normalize blood sugar and triglyceride levels.

A double-blind study of 78 people, published in the scientific journal, *Phytomedicine*, revealed dramatic and exciting results:

After six weeks of taking Aloe daily, the average blood sugar level of the participants in the test group declined 43% and triglyceride levels also decreased 44%.

The participants who did not take the Aloe vera had an average blood sugar increase of 2.4% and an average increase in blood triglyceride levels of 8.4%.

And a recent study conducted in Texas as reported by Dr. Danhof revealed these exciting results:

Type II diabetics with elevated levels of blood sugar, insulin and triglycerides were given a concentrated Aloe beverage to take every day for eight weeks.

After eight weeks, 80% of those drinking Aloe had normal levels of blood sugar, insulin and triglycerides.

...NORMAL LEVELS!

Aloe worked even when blood sugar medicine didn’t!

At Mahidol Medical University, Bangkok, researchers conducted a trial on patients who were unresponsive to glibenclamide, an anti-diabetic medication.

Those patients who received only the glibenclamide still suffered from the same high fasting blood glucose levels, high triglyceride levels and dangerous cholesterol levels.

Those who received Aloe saw a 48% decrease in blood sugar levels and a 52% decrease in triglycerides!

5 plant sterol compounds give Aloe its natural ability to help control your blood sugar levels.

In July 2006, a team of Japanese researchers published a study in *Biological & Pharmaceutical Bulletin*. They had successfully identified five phytosterol compounds that help explain Aloe’s extraordinary ability to balance your blood sugar safely and effectively.

In fact, phytosterols are now being added to the foods you eat to help lower cholesterol!

In addition to the 5 plant sterols, Aloe’s polysaccharides deliver the knock-out punch to deadly out-of-control blood sugar!

14 CALL NOW 1-800-651-3066

When you eat, your food is broken down into a sugar called glucose, which then gets absorbed into your blood stream and carried to cells throughout your body.

Insulin released by your pancreas binds to “insulin receptors” on those cells and, when all is well, the receptors shepherd the correct amount of blood glucose into your cells to be used for energy.

In many people who struggle with blood sugar, the insulin receptors have become deformed and malfunction. Your cells reject the glucose, leaving dangerously high levels of glucose in your blood.

But your cells are smart. They need “food” to survive. So they feast on triglycerides — boosting the production of triglycerides to dangerous levels.

Aloe helps make some of the deformed receptors NORMAL!

According to various published reports, Aloe’s polysaccharides can repair some of the deformed insulin receptors, so more of your cells can be nourished with the optimum amount of glucose.

What’s more, glucose can also enter the cells thru connections between cells called “tight junctions” which Aloe helps open up.

And because your cells no longer

“steal” triglycerides to survive, your triglyceride levels are more likely to return to balanced, normal levels.

But not only can Aloe vera help keep your blood sugar levels balanced, it’s one of nature’s most effective heart health protectors.

5,000 patients show Aloe vera’s ability to protect your heart.

In 1985, O.P. Agarwal, M.D., completed a landmark 5-year study of 5,000 patients with heart disease.

The participants were instructed to add Aloe vera to their diet — it was added to bread eaten at lunch and dinner.

All patients were instructed not to consume alcohol during the study and smoking was not allowed.

After just three months, 93% of the patients experienced a significant improvement in serum cholesterol and triglyceride levels.

And not one of the 5,000 patients taking Aloe vera suffered a fresh heart attack.

Why is this so significant?

Because according to the American Heart Association:

“One out of four men and one out of three women who live through an attack will die within the following

Not a single side-effect... or heart attack... after 5 years taking Aloe!

At the end of his landmark 5 year study of Aloe vera, Dr. Agarwal remarked with amazement that:

“...the most interesting aspect of the study was that no unwanted side-effect was noted, and all the five thousand patients are surviving to date.”

“Grandma is sure walking better!”

“I have pain in my knee. In June I got the TrueAloe brochure in the mail and thought I’d try anything to feel better.

After 2 weeks my grandson told my daughter, “Grandma sure is walking better!” I can’t believe the relief I’ve gotten in just 2 ½ months. I’ll probably be out playing in the snow in another month!”

– Vivian D.,
Twin Bridges, MT

“TrueAloe is the only product that has helped me”

“Since taking TrueAloe my symptoms of irritable bowels

with diarrhea have dramatically improved. I have tried several other products, but this is the only one that has helped me. Thank you!”

– Kathy F.,
Colorado Springs, CO

“Now I can crochet again!”

“I have joint pain and I needed something more (than what I was taking). I love to crochet and now I can, thanks to your TrueAloe!”

– Karma B.,
Bristow, OK

Individual results may vary

year, most often of cardiac arrest or another heart attack.”

Aloe vera may help normalize your cholesterol and protect against arterial plaque.

In 2000, scientists at Kyung Hee University in Seoul, Korea conducted a double blind animal study.

The test group that received Aloe vera ended the study with an LDL cholesterol level that was 30% less than the group that received a placebo!

That’s why doctors and scientists agree:

“The use of Aloe vera will be the most important single step forward in the treatment of diseases in the history of mankind.”

H.R. McDaniel, M.D.
Pathologist and Researcher
Dallas-Fort Worth Medical Center

“If Aloe vera were to be discovered today, and its remarkable healing properties investigated, it would be hailed as the ‘wonder drug’ of this century.”

Ivan Danhof, Ph.D., M.D.
Leading Aloe vera Researcher

“Whole leaf Aloe vera extracts can eliminate dozens of harmful bacteria. The diseases associated with these bacteria are some of the most common and fatal of our time.”

David E. Williams, M.D.

Is all Aloe vera the same?

No!

Many folks selling Aloe-like products lace their Aloe with all kinds of fillers...like maltodextrin...

because fillers are cheaper than Aloe powder.

Maltodextrin is a common additive in many so-called "natural" Aloe products. It's cheap. It's white. And it's sweet, like sugar.

In fact, if the powder in your capsules is white, you've got a capsule full of fillers!

The label on the bottle says something like "Enriched Whole Leaf"... and now you know why! It's

enriched with maltodextrin!!

Because Aloe processed correctly using the entire leaf is ALWAYS creamy yellow.

If you're not taking TrueAloe™, you may be wasting your money!

Why?

Most of the Aloe-like products on the market are not made from the part of the Aloe plant where the vital nutrients and polysaccharides live —

Are you paying for Aloe or filler? Take the 2-cent iodine test.

- 1** Go to the drug store and buy a bottle of iodine.
- 2** Pour about 2-cents worth of iodine in a clean dish or bottle cap.
- 3** Gently open 2 or 3 Aloe capsules, and pour the powder into the iodine. Stir. Wait a few minutes.
- 4** If the liquid turns blue/black, guess what? You've got capsules loaded with maltodextrin! It's not pure Aloe!
- 5** Do the same with a TrueAloe capsule...it gets stained by the iodine, but does not turn blue or black.

That's because every capsule of TrueAloe is made from the entire Aloe leaf...no fillers allowed.

Iodine Alone

TrueAloe™ added to Iodine

Competing Aloe product added to Iodine

TrueAloe™ does not turn black in iodine because it's pure Aloe!

This competitor's Aloe product turns pitch black because it's made with starch! Customers of this company are being ripped-off!

17

“Amazing relief from pain and stiffness.”

“I have pain in my knee and pain and stiffness in my neck and shoulders and, recently, my right foot. Since taking TrueAloe, I have had amazing relief from pain and stiffness. I no longer take over-the-counter or prescription drugs, since I try to avoid their side-effects to my liver and kidneys.”

– Miriam P., Philadelphia, PA

the outer rind.

They’re made from the inner gel only, which is 99.5% water!

They throw the outer rind away and many of the truly magnificent nutrients are gone.

The polysaccharides are made in the outer rind! And TrueAloe™ is made from *combining* both the inner gel AND the outer rind.

That’s because when processed correctly together, you get 200% MORE of the beneficial nutrients than what you get from just the inner gel.

Some Aloe industry sources estimate that as much as 75% of Aloe sold today may not be pure... or has lost up to 40% or more of the beneficial nutrients.

The best way to preserve Aloe’s rich polysaccharides, is to harvest and process the leaves 100% by hand!

Many manufacturers simply aren’t interested in paying for such a labor-intensive process, *because it cuts into their profit!*

So they use machines. But some of those machines and processes

kill at least 40% of the valuable polysaccharides you need!

The label says “whole leaf” but many of the whole leaf nutrients were destroyed.

...but it gets even worse...

Then they literally cook out much of the remaining nutritional value.

Because the inner gel is 99.5% water, they get rid of the excess water by using high temperature heat.

Heat destroys polysaccharides, enzymes and nutrients — and most Aloe you buy was yanked from the ground, sat in the full sun for hours, run through a machine and then shoved in an oven and heat processed!

It’s a bit like overcooking broccoli – all the nutrition boils out and you’re left with mush.

That’s why it took me over eight years to find the patented, cold-process Aloe powder only found in TrueAloe™

I started NatureCity in 2002. We had a good quality Aloe product (nothing made from mush)...and

18 CALL NOW 1-800-651-3066

plenty of happy customers!

It would have been easy to leave the product alone.

But I'm not what you would call "easily satisfied." In fact, those who know me say I'm... well...difficult! Why? Because...

Our employees, families and YOU depend on NatureCity® to deliver the best health products in the world.

...and I take that responsibility personally.

You see, you're not just a customer to me...you're family.

And when my world-wide network of scientists shared their discoveries about the outer rind, I drove everyone in the office (and home!) crazy with my desire to find Aloe powder harvested by hand and made from this superior combination.

Family deserves the best.

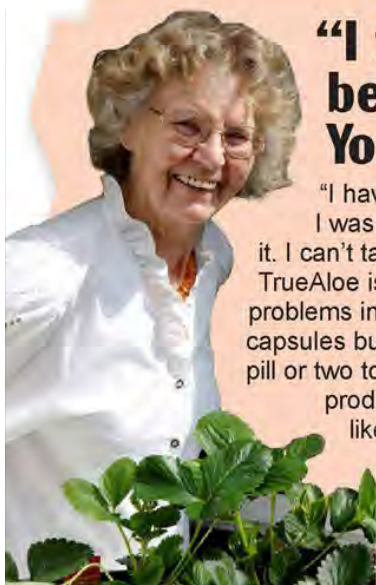

In a secret garden, protected by geese, untouched by pesticides, is a pristine corner of the world known to only a few...

...the finest Aloe vera powder in the world is grown.

That's because it's hand-harvested and hand-filleted — delicately removing the inner gel as well as the outer rind — and then processed with a patented freeze-drying method that protects and preserves the valuable polysaccharides, enzymes and nutrients.

What makes the Aloe vera in TrueAloe™ so much better?

1. Dr. Danhof's team personally considered over 50 locations before discovering this secret location to grow Aloe vera.
2. It has ideal growing conditions: the soil is rich in volcanic ash and irrigated by pure, clean rainwater and mountain springs.
3. The soil has never been touched by pesticides or herbicides. Geese

"I feel NatureCity must be a family of friends. You really care!"

"I have suffered with acid reflux most of my adult life. I was prescribed a drug to take but I had a reaction to it. I can't take any of the proton pump inhibitor medications. TrueAloe is the first, true relief I have had from stomach problems in years! My usual daily dose of TrueAloe is 5 capsules but if I am having a bad day I can take an additional pill or two to get it back in line. Because TrueAloe is a natural product I can do that without fear of over-medicating like (what would happen with) a prescription drug.

I feel like NatureCity must be a family of friends. I feel like you really care about your customers."
- Carol K., Roanoke, VA

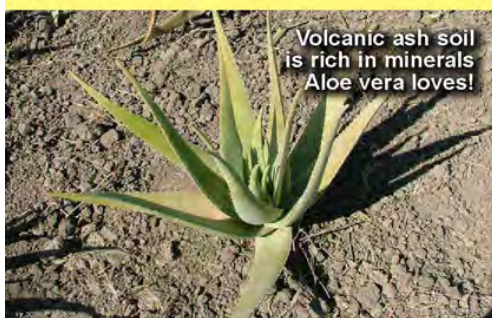

www.naturecity.com/save

19

Your TrueAloe™ is Grown in Perfect Conditions...

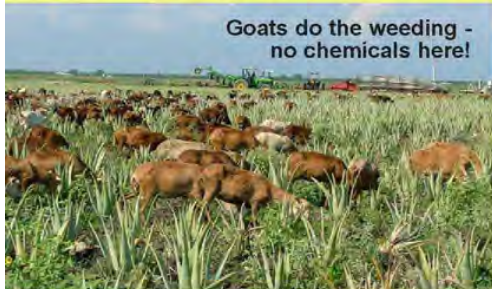

Pollution-free environment ideal for growing organic Aloe vera.

Volcanic ash soil is rich in minerals Aloe vera loves!

Plants are irrigated by mountain spring water

Goats do the weeding - no chemicals here!

Aloe leaves are hand-harvested at peak potency

- eat the bugs and 150 goats weed.
- 4. It easily passed organic standards.
- 5. Only 3-year old plants are harvested — at their peak potency.
- 6. The leaves are hand harvested and reach the processing plant in under 3 hours.
- 7. Dr. Danhof's patented freeze-drying method ensures the enzymes, nutrients and polysaccharides remain intact and 100% potent.
- 8. No fillers are ever used!
- 9. Anthraquinone compounds, an unpleasant laxative, are removed using a carbon filter. This process is so effective, it removes all but the tiniest trace... why, you'll get more anthraquinones in German beer!

Using Dr. Danhof's patented technology results in a superior Aloe vera product.

Several years back, one of my colleagues had the great idea of contacting Dr. Danhof — a legend in the Aloe industry.

Pick up any book on Aloe, and you'll see Dr. Danhof's name beside a long list of clinical testing and studies that illuminated whole leaf Aloe's amazing potential to heal.

In fact, Bill C. Coates, R.Ph., C.C.N. says, "...his analysis of the curative potentials in the whole leaf also proved exceptional, if not infallible."

Dr. Danhof focused his substantial knowledge into perfecting a state-of-the-art method for preserving Aloe's magnificent nutrients.

But remember, when it comes to

the health and well-being of family, I'm not easily convinced!

So I spent another year using all of our contacts to find an Aloe vera powder that was better than anything made by Dr. Danhof...and failed.

Dr. Danhof created the gold standard — no one can surpass him.

That's why, in early 2009, we entered into an exciting partnership with Dr. Danhof, and today...

TrueAloe™ is the Gold Standard in natural health.

Every capsule of TrueAloe™:

1. Delivers powerful “Agent of Life” polysaccharides — over two times more than what you'll get in other Aloe products.
2. Is 100% real Aloe vera from both the inner gel and outer rind— not a single filler or additive.
3. 99.999% free of anthraquinones

— the agents that act as an undesirable laxative.

4. Contains 100% USDA certified organic Aloe vera. 
5. Has received the coveted Seal of Certification by the International Aloe Science Counsel (IASC). 
6. Each batch of TrueAloe™ is personally analyzed by Dr. Danhof to ensure high quality and purity.
7. Comes with my exclusive, no questions asked, 365-day guarantee — you never risk a penny!

I believe so much in the power of TrueAloe™, I've slashed the price so you save a fortune!

Tens of thousands of pain-free clients agree TrueAloe™ is the best.

But it's NOT the most expensive!

There's one product out there loaded with maltodextrin that sells for almost \$60.00 a bottle. You're paying lots of money for sugar and a dot of Aloe!

I know times are tough right now,

“I've tried others — TrueAloe is the best!”

“I have irritable bowels and some joint pain. Aloe is part of the plan to deal with the pain. I have found TrueAloe far superior and more convenient than liquid Aloe.

Since I started using your product six weeks ago I feel much better and have much less irritability. I have also noticed significant reduction in my joint pain. Thank you!”

— Paul N. • Indialantic, FL

www.naturecity.com/save

21

that's why I've kept the price of TrueAloe™ rock-bottom low.

TrueAloe™ is the Gold Standard in natural health... and a true bargain for only 56 cents a day!

What can you buy for 56 cents? Not much!

The *Forever Stamp* is 46 cents. You can mail one letter, but it can't stop the pain you'll feel getting in and out of your car at the Post Office!

But for 56 cents a day you'll "finally" help your body:

- reduce joint and muscle pain
- put out the inflammation fire
- restore youthful movement & freedom
- balance your blood sugar & triglyceride levels
- normalize dangerous cholesterol levels
- stop indigestion and burning gut acid
- get rid of embarrassing gas and bloating
- get relief from constipation
- maintain healthy, normal blood

TrueAloe™ earns the International Aloe Science Council (IASC) Seal of Approval!

The IASC is a not-for-profit "watchdog" agency that makes sure products marketed as containing Aloe vera are authentic.

Attaining IASC Certification is a significant process, and represents our commitment to a high level of purity, content and integrity in TrueAloe™.

The Certificate demonstrates that TrueAloe™ passed a rigorous, professional inspection and audit for TrueAloe™ and that the content and purity of TrueAloe™ has been scientifically validated and certified by an independent group of professionals.

We're proud of this accomplishment...and it proves that TrueAloe™ is the purest Aloe you'll find. When you buy TrueAloe™ you're getting 100% Aloe – no fillers. The IASC Certificate proves it!

"The IASC seal proves its REAL"

pressure

- boost your immunity
- jump start your energy levels
- smooth away fine lines and wrinkles...

...ALL with no side-effects and less toxicity than tap water.

For only 56 cents a day, 4 teeny easy-to-swallow capsules:

- ✓ cascade your body with 100% Aloe made from the entire leaf — absolutely NO fillers allowed...
- ✓ flood your body with “Agent of Life” polysaccharides ready to trigger your Natural Killer cells into action...
- ✓ deliver over 300 nutrients, including 20 Amino Acids, 16 essential minerals and 13 vitamins...
- ✓ ease pain and inflammation with 10 natural pain-stoppers...
- ✓ protect your heart and body from deadly diabetes with 5 natural phytosterols...
- ✓ are free of pesticides and herbicides...the geese gobble up all the bugs...150 goats do all the weeding...
- ✓ are 100% organic – no deadly heavy metals or useless fillers
- ✓ are certified for Aloe content and purity by the rigorous standards of the International Aloe Science Council (IASC).
- ✓ contain Aloe vera personally analyzed by the world’s leading Aloe authority, Dr. Danhof.

Put TrueAloe™ to the test without risking a single penny!

That’s right. If TrueAloe™ doesn’t

“I won’t stop taking TrueAloe this time!”

“Several years ago I injured my shoulder and had extreme pain when trying to raise my arm past my head. I started on TrueAloe and in about 6 weeks I could raise my arm above my head without pain. I took TrueAloe for a couple of years, and for some reason I stopped taking them. My shoulder regressed back to the painful state it was in before, so I ordered TrueAloe and sure enough my shoulder started getting better in several weeks and now is the best it has ever been!”

I won’t stop taking TrueAloe this time!”
– Rodney D., Woodleaf, NC

“Your employees are remarkable!”

“I had knee surgery years ago that led to very bad pain. I was told 2 years ago I needed a replacement. The TrueAloe decreased the pain and allowed me to participate at work and home. The benefits have been remarkable! The pain has lessened and I can climb stairs and continue my life.

Also, your employees are wonderful, very knowledgeable and professional. They answer all my questions and once, someone didn’t know an answer, and he called me back! I think this is remarkable!”

– Nancy D., Melrose, MA

work for you, you pay nothing.

Not for just 30 days...or even 60 days...

“I have real PROOF TrueAloe works for me!”

“Two weeks ago, for some reason, I forgot to include TrueAloe capsules with my regular daily medicines which I set up for a week at a time. My left knee and thumbs began to bother me. By the end of the week — without TrueAloe — I was nearly unable to walk and almost fell twice.

“When I sat down to prepare my meds for the following week, I realized I had forgotten to include TrueAloe and knew immediately why the pain had returned. I’ve been back on TrueAloe for 3 days now and the pain is going away. My walking is almost back to normal. I know now without a doubt that the TrueAloe works for me.”

— Beverly R., Biloxi, MS

“I have a lot of living to do”

“Both my knees were crushed. A wheelchair and constant pain was predicted by my doctor. Well that is not for me so I started taking TrueAloe capsules.

I can now get around with a walking stick and the pain is non-existent. Thank goodness — after all I am only 88 and I have a lot of living to do as I ride my ATV all around my place.”

—Lee S., Arlington, WA

this common ingredient, it may increase your chances of mouth, pharynx and larynx cancers by up to 500%.

day get every penny back.

All your FREE gifts are yours to keep, no matter what.

Now that's a fair deal. Please call 1-800-651-3066 right now to order, or if you prefer, order online at www.naturecity.com/save.

Yours for good health and a pain-free life,

Carl Pradelli
NatureCity®
President & CEO

P.S. Why is a free bottle of TrueAloe™ one of your gifts today with the Best Value Deal? Because you deserve a fair and honest deal

for your money. Please let me explain.

You see, we've discovered that the best way to get the maximum benefit...and quicker results...is to begin with an increased dosage of 4 capsules twice per day (8 capsules) for the first 14 days. Then, you can take 2 capsules twice per day, as suggested on the label.

This is called "front-loading" and some feel relief within 1 week! It's very effective...but it uses up 112 capsules, which is almost a one month supply.

That means you'd only have 5 months left...and I don't feel right about that.

So my gift to you is your 7th bottle, free, because you've paid for 6 months and you should get a full six months!

100% One Year Money Back Guarantee!

I want you to put TrueAloe™ to a true test. That's why you have a full year to decide whether TrueAloe™ is making a positive difference in your life.

If for any reason, you are not satisfied with TrueAloe™, you can return this order and receive a full 100% refund of the purchase price.

No questions asked. This guarantee is good any time for one year from the date of purchase.

I thank you for trying TrueAloe™ and just know you're going to love

it. But if you don't, send back your most recent order within one year of purchase for a full refund less any return shipping charge. There is no risk. You have my word!

Sincerely,

Carl Pradelli
President,
NatureCity
