Acrobat

Flexibility for Any Task

enhanced
vision

EVFTC 00000003

Before Corrective Action

See near, far and everything in between with Acrobat. It's our most flexible solution for reading, writing or viewing magnified images at any distance. Use it up close like a mirror for applying make-up or other personal grooming.

By simply rotating the camera you can magnify images in the distance. Use it to view presentations, paperwork, even work on crafts and hobbies. Acrobat is ideal for work, school or home and is easily transported.

Acrobat, like all Enhanced Vision products is made in the U.S.A.

I love my Acrobat! It has truly given me a new lease on life. I can read Bible sized print, do more detailed things like tying fishing hooks and flies. Things I used to depend on others to do for me I now do myself. There's no end to the potential for this wonderful device.

-Carrol C. "Red" Myer

ACROBAT LCD is a complete system featuring a 3-in-1 camera with a 19" monitor. The adjustable arm and rotating capability allows the camera to be positioned at any angle for optimal viewing. A built in handle allows for easy transport.

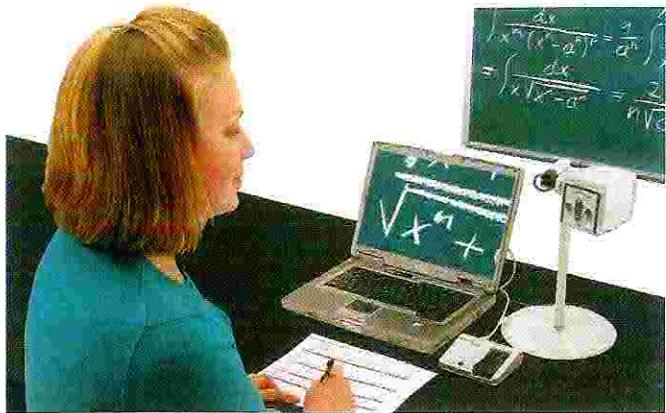

Acrobat

Features Include:

- Autofocus 3-in-1 camera for seeing yourself up close, reading and distance viewing
- Detachable camera for use at multiple work stations
- Various arms and positioning options provide maximum flexibility
- True mirror image in self-viewing mode
- Memory setting for each camera position
- Compact size minimizes space needed on table or desk
- Set up is easy, just plug in and begin
- 19" monitor provides 65x adjustable magnification
- 7 viewing modes to optimize contrast and brightness
- Wrap around dual keypad allows easy access to controls
- Computer compatible
(additional hardware required)
- Two year warranty
- Line markers, object locator, remote control and more...

Camera Arm Options:

You can select from two additional arm options that can be connected to the monitor of your choice

ACROBAT SHORT ARM

Free-standing short arm is easy to transport and offers great stability. Carrying case included.

ACROBAT LONG ARM

Longer arm provides flexibility to work on larger projects. Clamps easily to a table or desk.

Note: Monitor sold separately for Short and Long Arm options.

For more information or to schedule a no obligation demonstration, please call (888) 811-3161.
