INTRODUCTION

The National Do Not Call Registry (Registry) provides consumers with an easy and efficient way to register their preference not to receive most telemarketing sales calls.

The Registry has continued to grow since its inception in the summer of 2003. As of September 30, 2016, there were 226 million active registrations.¹ Consumers can register their phone number(s) on the Registry by either calling a toll-free number (888-382-1222) from the telephone number(s) they wish to register or using the do-not-call website (<https://www.donotcall.gov>). The do-not-call rules require telemarketers and sellers to remove the numbers on the Registry from their call lists at least every 31 days. Telemarketers can access the Registry through a website (<https://telemarketing.donotcall.gov>) dedicated to that purpose.

Consumers notify law enforcement of violations of the do-not-call rules by submitting complaints to the Federal Trade Commission (FTC) via either the toll-free number or the website. Law enforcement officials can then review these complaints, as well as consumer registration information and telemarketer access information, through the Consumer Sentinel Network (CSN), a secure Internet website maintained by the FTC. For more information about CSN, please visit www.FTC.gov/sentinel. Law enforcement personnel may join CSN at <https://register.consumersentinel.gov>.

The *National Do Not Call Registry Data Book* contains statistical data regarding the registrations on the Registry, the subscriptions of entities (e.g., telemarketers and sellers) accessing phone numbers on the Registry, and the complaints consumers submit to the FTC about companies allegedly violating the do-not-call rules.

The *National Do Not Call Registry Data Book* for Fiscal Year 2016 is based on unverified complaints reported by consumers. This report is not based on a consumer survey.

¹ For the purposes of this report, “active registrations” are those registrations consumers have placed on the Registry and have not been subsequently deleted by the consumer or removed by the FTC because the number was disconnected and reassigned. If a telemarketer downloaded the Registry on the reported day, this is the number of registrations that would have appeared.

Consumers may also file a complaint without responding affirmatively to these questions. On September 1, 2009, the National Registry began accepting all complaints regarding calls using a recorded message, regardless of the registration status of the called number.
